

CITY OF HARRISONBURG DROUGHT MONITOR DASHBOARD

10/17/2012

Conservation Trigger	Status	Environmental Status (MG)	Trigger Status	No Restrictions Trigger	Watch Trigger	Warning Trigger	Emergency Trigger
Dry River-Switzer (reserve volume / withdrawal) Full Reservoir: 1,181	No Restriction	1,181	368	≥31 days	30 days	14 days	7 days
North River (withdrawal / instream)	No Restriction	120.1	3%	≤ 15%	>15%	>18%	>21%
Shenandoah River (withdrawal / Instream)	No Restriction	197.0	0%	≤ 8%	>8%	>9%	>11%

Instructions: compare Trigger Status to Restriction Status

The drought monitor dashboard has been formatted to follow the City Code of Ordinances Section 7-4-11 and the underlying "Upper Shenandoah River Basin Water Supply Plan", with specific reference to the "Drought Response and Contingency Plan" component of the latter.

The ordinance and the Water Supply Plan can be viewed at www.Harrisonburgva.gov.

Current conditions are shown above under "Status" with the most real time data available under "Trigger Status".
